Service Level Agreement (SLA)

Project

Product: MTP Digital Agriculture Grade 9 Interactive Digital Content
Subject/Lot: Grade 9 Agriculture
Provider: Mountain Publishers / MTP Digital
Client: Kenya Institute of Curriculum Development (KICD) / Procuring Entity
SLA Term: Three (3) years from commissioning, with post-warranty support as agreed in the contract.

1. Purpose

This Service Level Agreement defines the support, maintenance, response time, update, and escalation commitments for the MTP Digital Grade 9 Agriculture interactive HTML5 content package.

2. Supported Content

The supported content includes:

- HTML5 interactive learning package.
- Main `index.html` and all referenced JavaScript, CSS, images, PDF, icons, and local assets.
- Offline/PWA functionality.
- Interactive lessons, quizzes, games, glossary, notes, teacher dashboard, progress tools, and report features.
- Bug fixes, compatibility updates, and approved content corrections.

3. Service Provision

The provider will maintain the digital content during the SLA period by:

- Providing updates, releases, and corrected versions at no additional cost during the warranty period.
- Fixing functional defects that prevent learners, teachers, or reviewers from using the content.
- Maintaining compatibility with common browsers including Chrome, Edge, Firefox, and Safari where technically feasible.
- Supporting deployment in offline, online, wired, wireless, and mixed school ICT environments.
- Providing guidance for installation, packaging, and use of the HTML5 content package.

4. Support Availability

Support shall be available through the following channels:

- Email support.
- Phone support.
- Chat or messaging support, where available.

- Remote troubleshooting, where connectivity permits.

Standard business-hour support will be available Monday to Friday, excluding official public holidays. Critical content-access issues will be acknowledged on a 24/7 basis during the active contract lifecycle.

5. Response And Resolution Times

Priority	Description	Acknowledgement Target	Resolution / Workaround Target
Critical	Content cannot open, major offline failure, package unusable, or blocker affecting many users.	Within 2 hours	Within 2 hours where feasible, or provide a workaround and fix plan within 1 business day.
High	Major feature failure affecting quizzes, games, PDF access, progress saving, or teacher tools.	Within 4 business hours	Within 2 business days.
Medium	Non-blocking defect, display issue, minor browser-specific issue, or limited content correction.	Within 1 business day	Within 5 business days.
Low	Cosmetic issue, wording improvement, documentation update, or enhancement request.	Within 2 business days	Scheduled for the next planned release where approved.

Resolution timelines may depend on issue complexity, availability of approval for curriculum/content changes, and access to affected devices or environments.

6. Updates And Releases

The provider will issue updates when required for:

- Approved curriculum/content corrections.
- Browser compatibility fixes.
- Security or packaging improvements.
- Accessibility and usability improvements.
- Bug fixes reported during review, commissioning, or live use.

Each update will include a brief release note describing the change, date, affected files, and version.

7. Escalation Procedure

If an issue is not resolved within the stated response or resolution target, it will be escalated as follows:

1. **Level 1 - Support Desk:** Logs the issue, confirms reproduction steps, and provides first response.
2. **Level 2 - Technical Lead:** Investigates code, packaging, browser, device, or offline deployment issues.

3. **Level 3 - Project Manager:** Coordinates timelines, client communication, release approval, and delivery.
4. **Level 4 - Management Review:** Handles unresolved critical issues, contractual concerns, or repeated SLA breaches.

Escalated issues will include an updated status, responsible person, expected next action, and estimated fix or workaround time.

8. Maintenance Scope

Maintenance includes:

- Defect correction.
- Content package rebuilding.
- Browser and device compatibility checks.
- Offline-cache and asset-reference corrections.
- Documentation updates.
- Packaging support for submission and deployment.

Maintenance excludes:

- New curriculum content not approved under the contract.
- Third-party platform failures outside the provider's control.
- Device hardware faults, operating system corruption, or network infrastructure failure.
- Unauthorized modification of the content package by third parties.

9. Security And Data Handling

The app stores learner progress locally in the browser using offline storage. The provider will:

- Avoid unnecessary collection of personal data.
- Not require a server database for standard package use.
- Support secure packaging and distribution practices.
- Correct any identified client-side security issue that affects content use or learner data integrity.

10. Warranty And Post-Warranty Support

The provider commits to full support during the three-year warranty period. After the warranty period, the provider will provide support and maintenance for two (2) additional years where required by the contract or a mutually agreed support arrangement.

11. Reporting

For each reported issue, the provider will maintain a record containing:

- Date and time reported.
- Reporter/contact.

- Priority level.
- Description and reproduction steps.
- Status.
- Resolution or workaround.
- Date closed.

12. Review

This SLA may be reviewed periodically by the provider and client to reflect approved contract changes, new deployment environments, or updated support requirements.
